29 July 2014

I am delighted to be lending my support to the project which will install a full sized English cathedral organ in the beautiful Hooglandse Kerk in the historic centre of Leiden.

The Stichting Cathedral Organ Leiden is an admirable body of musicians and enthusiasts who are currently restoring an English romantic organ. The work, which is being carried out in Liverpool where the organ was originally built in 1892, is well underway. Plans are well advanced for its installation in the Hooglandse Kerk, and for the first concert in September 2015.

As this exciting project comes to fruition, we now have before us the prospect of hearing a distinctively English form of music in a spectacular Dutch setting.

I hope you will join with me and support this project in any way you can.

Geoffrey Adams
